Collaborative Stage Version 02.03 FAQ Known Issues Document

The Collaborative Stage team has developed a known issues document that can be useful when coding in CSv02.03. This document contains important information for a few schemas and fields where there is a known issue with CSv02.03 that will be resolved in the upcoming release. This document was created to let you know that the Collaborative Stage team is aware of the issues you may be encountering with these few fields in CSv02.03 and they will be resolved in CSv02.04.

Please take a moment to download or print this document as a reference to use when coding these fields. The FAQ document can be found at: <http://cancerstaging.org/cstage/csv2/faqs.html>

For other questions about CS please visit the CAnswer Forum:
