Percent of Colorectal Cancers Diagnosed at Advanced Stage

- 40-49% diagnosed advanced stage
- 29-39% diagnosed advanced stage
- Not significantly different from the comparison group (25% advanced stage)
- Not calculated (<15 cases)

Note: MSSA 78.1 (Avalon) not shown. The percentage was not calculated because there were less than 15 total breast cancer cases.

Prepared by: California Cancer Registry, California Department of Public Health (May 2014).
