Revised - Attachment Link Correction

New CCR Software Vendor Approval Report - 2014

An updated CCR Software Vendor Approval Report ([click here to access](#)) is attached with this alert.

This report is updated for every monthly Production meeting between the CCR, State, and Regional Directors, and also on an as-needed basis when there are updates from vendors or the CCR - until all current CA vendors have been approved. Whenever the report is updated, it is distributed via this notification system and also published to the ccrcal.org website.
